Thuna's system of making money easily was to select some fashionable house where rooms werg to rent, and, describing himself as an Austrian physician attached to one of the hospitals of this cits, rent an apartment, always demanding the best in the house, the amount of rent being no object.

All arrangements being satisfactority made, he would state that he had several trunks and a piano with the United States Express Company, to redeem which would cost \$75 or so.

As he was a little short of money the proprietor would be asked to advance him a little, and he, being such a good tenant, they gladly did so.

In each instance he left the satchel and the brass watch as security. Eighteen women were victimized in sums ranging from \$20 to \$50 in that manner, and he might be plying the same business new but that he ran foul of the Central Office detectives.

When accusers and accused faced the jury this morning Lawyer Emmanuel Friend begged that policemen be detailed to protect, the prisoner, as several attempts had been made by the women to assault him.

Then he argued that the man had committed no offense upon which he could be held, as he had only borrowed money from the women, and if they were willing to accept the watch and satchel as security, that was their business. The man had not practised medicine and therefore could not be held on the charge that he was not a physician.

There were so many complainants that the Judge did not know whom to select. Finally Mrs. Catherine Blanchard, of 61 South Washington square, took the witness stand and told her story, which was similar in general to all the others. To some of the complainants he said he was instructor in a riding school, and offered to leave his spurs as security. He was so plausible, however, that they did not want any security but his word. He insited, however, on leaving his satchel and the watch. The proprietor of the stable where Albright stopped says that Albright started on his way towards Dubuque, but after going about a mile and a half he turned into a side street and went back to the Iilinois Central stock-yards. CALLUNA TO BE REFITTED.

Sall Area to Be increased So She Will Rate with the Valkyrie. BOSTON, June 26 .- A cable from

Liverpool says: The Calluna has drawn out of the racing for the present, and has returned to the Clyde, where she will be refitted throughout. She will have a new mast, boom, topmast and bowsprit, and they will be longer than the old ones. The present boom is 85 feet, and the new one will be at least six feet longer. All her spars will be made longer, and she will have a new suit of salls.

suit of sails.

The Calluna can carry more sail, and the present plan does not utilize all her power. She is both undersparred and underrigged, and this seems to be the great trouble with her. Her sail area under the new conditions will be up to 10,209 square feet, making her rate with the Britannia and Valkyrie.

The Calluna has challenged for the Brenton's Reef Cup and has first claim on it.

One night last Winter the windows of the deserted house were illuminated. The next morning there were no signs of footmarks in the snow, and the doors were tightly locked.

Some weeks later a light, said to be of electrical brilliancy, was seen moving about the garden. It vanished and reappeared in various parts of the grounds.
